The WV Council adopted both the revised WV Northern Facilities Master Plan and the College Square project.

WV Council showed that members are willing to step up to the role and authority of a policy-making board. A dual credit report was distributed at the meeting which showed WV Northern has a higher number of students enrolled in dual credits than other colleges. A complementary program known as EDGE is being pushed by other colleges.

B. College Square Update

An updated Personnel Manual will be distributed to faculty and staff in the summer. Copies will be sent to the Board.

On the revenue side of the budget, the College is projecting a 6% increased enrollment, which takes FTE up to 1800, and adoption of a $3.00 increase per credit hour tuition.

E. Strategic Agenda Development for 2004 - 2005

An administrative workshop will be scheduled for two days in June to evaluate where the College is now and to draft a new strategic agenda. The agenda will be ready for Board review in August. Information will be disseminated as soon as it is available. Board review and adoption will be required once the strategic agenda is developed.

6. Staff Reports

A. Financial and Budget

Mr. Bandi reported on the statement of net assets and the statement of revenues and expenses. He informed the Board that the College had a decrease in State contracts and grants. This situation had to do with the College not being reimbursed for payment to SBDC personnel.

Dr. Hunter informed the Board that a balanced budget has been put together for FY05 which will include salary increases. WV Northern is the only college in the State to have all employees on the Mercer scale and have a plan for full funding, this despite the fact we have the lowest FTE appropriation.

The statement of cash flows was reviewed by Mr. Bandi. Based on enrollment growth, the College should see an increase in Perkins money.

Acquisition of the warehouse building is proceeding.

In conclusion of the budget report, Mr. Bandi stated the FY05 budget reflects a 2 ½ % reduction while the quarterly statements reflect the $85,000 budget cuts for the year.

B. Programs Evaluation Report

Rita Malek, Business Studies Program Director, gave a report on students applying as business majors.
Ms. Malek reported the following recommendations were made by the Business Studies evaluation team during their March visit: (1) Northern to seek alternative revenue sources and determine a backup plan once the Title III grant finishes and if Perkins funds are no longer available, (2) consideration of an internship for the Accounting and Business Administration program, (3) continued work with Mountaineer Racetrack and Wheeling Island Racetrack to increase enrollment in the Hospitality option, (4) inclusion of a course focusing on analyzing financial statements and a course on business taxes in the accounting program and (5) working with legislators on ways to restore the budget to previous levels.

In terms of job postings, the team indicated the College should have more contact with faculty regarding job postings which come through the Career Planning and Placement Office. Employers who have submitted postings also need to be apprized of what actions have been taken.

Mr. Wycherley has met with the institution’s recruiters and discussed job postings, a hot link on Northern’s Career Services web page has been added to access the institution’s web page for current job postings and an additional web page has been added to Northern’s site listing current job opportunities.

Two areas of concern cited by the evaluation team which are being addressed by the College include: focusing on WVNCC graduates and their success as a marketing tool for the Business program and assigning e-mail accounts to all students.

Mr. Danford made a motion to accept the Business Studies, AAS degree Evaluation Response presented by Ms. Malek. Ms. Botizan seconded the motion. Motion carried.

(4) IP Video Systems will be purchased during spring semester 2004.

F. Economic/Workforce Development and CEWE Strategic Plan

Mr. Koon reported the CEWE building was sold on April 13. Conversations were conducted with the new owners and an agreement has been negotiated where CEWE will remain in the building. Additional funding will be needed for lease costs (not a concern in previous years). Seed money is also needed. The College will approach the State for funds to supplement CEWE. Dr. Hunter distributed a letter to the Board relative to petition for lottery funds to save CEWE and address the problem of low funding received by WV Northern from the State versus funding received by other colleges. A series of petitions and briefs that lay ut the case for lottery funding to come to WV Northern will be sent to Northern Panhandle legislators.

A new strategic plan is being drafted to bring CEWE and the College closer together. Program approval for CEWE will be presented to the Board in the fall.
