4. Approval of Minutes (September 22, 2011)

5. Auditor’s Report

Brian Trischler, auditor at Costanzo & Associates, PLLC, presented the auditor’s report for West Virginia Northern Community College for the years ended June 30, 2011 and 2010. Copies of the report were given to the Board.

One material misstatement was detected in the audit procedure as listed below, but the misstatement was corrected by management:

-- A $54,411 adjustment was made to reduce accrued liabilities and corresponding wages and benefits expense for an over accrual of 9-12 month arrears faculty.

There were no disagreements during the course of the audit (i.e., financial accounting, reporting, or auditing matter).
Opportunities for strengthening internal controls and operating efficiency within the College are as follows: (1) Web Time Off reports need to be regularly reviewed, and (2) 9-12 month faculty accrual needs to be checked for accuracy to include proper wage, calculate the correct related benefits and to verify that the accrual represents what is actually owed to the 9-12 month faculty at June 30 fiscal year end.

Corrective measures were taken on some of the prior year audit recommendations; and observations were as follows: (1) Auditors recommend a written rule on retention and destruction be established identifying record retention responsibilities of staff, faculty, volunteers, board members, and outsiders for maintaining and documenting the storage and destruction of the College’s documents and records, and (2) communication between procurement and reporting should be improved to expedite the grant expenditure and reporting process. The business office should periodically meet with each grant administrator to review the status of each grant. Mr. Lippiello assured the Board these meetings will occur regularly.

The overall assessment is the College received an excellent audit report. **Mr. Clarke made a motion to accept the audit report as presented. Mr. Monezis seconded the motion. Motion carried.**

8. Administrative Staff Reports

A. CFO and VP of Administrative Services ........................................... Steve Lippiello

- ECS Renovation Estimate

An analysis and preliminary cost estimate on the Electrical Supply building submitted by Victor Greco of SMG Architects was distributed to the Board. The analysis includes the construction estimate as well as allowances for alternates (Haz Mat abatement and elevator). The cost estimate provided is based on the building being used for student activities and a daycare center. Should the Board decide to proceed with the purchase of the ECS property, construction/renovation would go out to bid. Board Chair, Joe Craycraft, Dr. Olshinsky, and Mr. Lippiello will meet with Attorney Erik Schramm to move forward on negotiations.

Mr. Lippiello reported the WVNCC Foundation appears to be willing to provide funding for the College for the ECS building. The College would then pay back the money, including a nominal interest rate, to the Foundation over a number of years.

B. Vice President Student Services........................................................ Janet Fike

- An enrollment report was given to the Board by Ms. Fike.

C. Vice President of Academic Affairs ............................................ Dr. Vicki Riley

- Title III Grant

Northern received a Title III grant in the amount of $1.5. Money from the grant will be used for student retention and the College will focus on support activities for underprepared students (math, reading and writing). As part of the project, the College will implement computer-assisted labs, additional tutoring services, hire two new faculty members, and provide professional development for faculty.
