Proposals Not Approved	<b>New Program: Pre-Industrial Engineering Articulation to WVU (this was addressed at the Jan. 14, meeting, it is a pathway, not a program. Should not have been on the agenda)</b>

Other Business	<p>Curt Hippensteel still has the proposal for Technical Studies in Curriculog. The committee can work on this proposal, however, if it approved for this cycle, it can be offered but won't be eligible for financial aid during the first year and will require financial aid approval the following year,</p> <p>H. Kalb asked if this was the last meeting to submit course proposals. Ms. Yesenczki stated that the committee could still work on course proposals, but it was too late to work on any program proposals that had changes to the program title, total credit hours, and/or CIP code changes.</p>	
	<b>Details on approvals and discussions are available in Curriculog.</b>
