Dr. Olshinsky reported that Ms. Boyd signed off on the contract to engage Costanzo and Associates services in September. The final report was presented to the entire Board for
endorsement and acceptance. Mr. Brian Trishler, auditor for Costanzo and Associates, gave a report relative to the document. **Mr. Freeland made a motion to ratify the agreement. B. Emergency Rule on Sexual Assault

The Emergency Rule on Sexual Assault was distributed to the Board and a discussion was held. Ms. Harman sent in an e-mail which addressed the following items in the rule: In the first sentence of paragraph five: delete the word “or.” Also in paragraph five, in the third sentence, Ms. Harman asked who would determine guilt if a person filed a false accusation and if this relates to a College tribunal or a government finding of guilt. Ms. Harman stated that this sentence needs clarification. Ms. Fike stated that it is up to the College to determine guilt. The College Code of Conduct will be used in making this determination. However, it is the responsibility of the victim to press charges, not the College. The Board agreed that the words “by the College” should be inserted after "found guilty" in the first and third sentences of paragraph five.

In paragraph ten, Ms. Harman asked if specific acts (i.e. rape), should be left out and verbage inserted stating that the College may impose the maximum sanction “for any forcible or non-forcible action(s).” She stated that the more a particular act is separated out, the more it almost excludes similar treatment of other acts that are not named. At the conclusion of the discussion, the Board decided that no changes should be made to paragraph ten, but additional research be conducted and Ms. Harman look at the revised statement from a legal perspective. **Mr. Freeland made a motion that the Board approve the revised emergency rule on Sexual Assault. Mr. Wycherley seconded the motion. Motion carried.**

The timeline for making the Sexual Assault Rule official is 90 days. All were in favor of the emergency rule on Sexual Assault. Therefore, the emergency rule is effective immediately.

C. Middle College

Information on the Middle College concept was provided to the Board and it was explained by Dr. Olshinsky. Superintendents from Brooke, Ohio and Marshall counties will meet with Dr. Olshinsky on November 8 relative to Northern’s plan to establish the first Middle College in West Virginia. President Olshinsky will present the Middle College concept to Faculty Assembly and Classified Staff Council at their next scheduled meetings.
D. Agreement Between College and Foundation

A copy of the Memorandum of Understanding between West Virginia Northern Community College and the West Virginia Northern Community College Foundation was included in the Board agenda packet. The agreement outlines the purpose of the Foundation, College Governance, Foundation responsibilities, and both the Foundation's relationship to the College and the College's relationship to the Foundation. Dr. Olshinsky, Ms. Fisher, Rob Krall (attorney), and HEPC General Counsel, Bruce Walker reviewed the agreement. The Foundation reviewed and approved the agreement, but is waiting on approval from the Board of Governors. Ms. Fisher stated that the Foundation would like to have representation from the Board of Governors on their Board.

Mr. Freeland made a motion that the Board of Governors approve the Memorandum of Understanding between the College and the Foundation. Mr. Wycherley seconded the motion. Motion carried.

F. President’s Report

A. CFO and Vice President of Administrative Services

• Year-End Audit Report
  Mr. Brian Trishler, auditor from Costanzo and Associates, gave a year-end audit report. He reported that the College has been improving its financial picture each year. The College is adopting a process for federal and stale dated checks. Costanzo and Associates made recommendations on ways the College may strengthen their internal controls. Mr. Bandi will follow up on
the letter of recommendations.

- **Hazel-Atlas Building – Vision for the Future**
  In the absence of Mr. Bandi, Dr. Olshinsky gave an update on the Hazel-Atlas building. Gil White, of Paull and Associates, has informed the College that the building can be put up for sale, but must be sold at the mid point of the assessed values, which is between $1.2 million or $375,000. However, the College may get the legislature to allow the building to be sold for a lesser amount. Two individuals have shown interest in the property. Another option the College is looking into is trading the Hazel-Atlas building for another building in close proximity to the campus. The goal of the College is to trade the building; however, if that doesn’t work out, the property will be sold.

  Dr. Olshinsky reported that Chancellor Skidmore is working to acquire around $80 million to open technical centers throughout the state. Northern would like to move classes from the Hazel-Atlas building into a new technical center if this should come to fruition. Chancellor Skidmore has Northern in the mix 2008 legislative session.

Work is being done with local and national foundations as well as corporate entities to become Northern sponsors. A PowerPoint presentation was made to the Board by Mr. Koon on what processes the College has put in place since the HLC’s visit in 2003.   Fall Census 2007 Campus Comparisons information was distributed. Headcount increased by 9.9%, which was attributed to table gaming. All campuses met their census headcount. Summer table gaming numbers are not in the Campus Comparison Report.

  Mr. Woodburn reported that the Wheeling Friends of the College Dinner brought in over $30,000, with a profit of $21,500 (a 50% increase over last year). Profits will go to Culinary Arts for POS, a portion for scholarships, and the remainder will also be endowed for scholarships.
• **Emergency Plan and Safety**

Mr. Woodburn reported that he shared with faculty, at a meeting on October 19, where the College is on the Emergency Plan and Safety. Focus was on communication. Communication systems the College is working on are: an e-mail system with students that will inform them when an incident is occurring (the system will be used for snow days also); a text messaging system for students, faculty, and staff (a volunteer program—costs may be incurred for text messaging); LCD panels in the hallways on the Wheeling Campus (soon to be installed on the other campuses); and a code system used in conjunction with the LCD panels to communicate crisis situations. Phones will be installed in all classrooms by the end of November (they will also be used as a PA system).
